Embedding a StoryMap

How to embed a map from StoryMapJS on a Pub

You might be asked to create a pub that includes a **StoryMap** that you create with **StoryMapJS**.

This tutorial assumes you already have a draft pub ready to go on PubPub and you have already created a StoryMap.

When you're finished editing your map at StoryMapJS, look for the share icon in the top right.

Help ▾

 Share

1. Click **Share**
2. Check to see if you have unpublished changes.
If so, click **Publish Changes**.

You can put this link on a line by itself to embed your storymap on [Medium.com](#) ?

Set these values to improve how your StoryMap appears as part of a tweet or Facebook share.

Description

4. Back in your draft pub in PubPub, click the **Media** button in the toolbar as you would to insert an image.

5. In the insert media box, click **Iframe**, then paste in your StoryMap URL, then click **Insert**.

6. Click on your StoryMap that is now embedded in your pub, then click the **Media** button in the top toolbar. Adjust the width and height of

your embedded StoryMap. Recommended embed settings are “breakout” alignment, 75% width, and 700px height.

SOUTHERN L

The Southern Literary Trail ® celebrates the life and works of great Southern writers and Mississippi by linking the places where they lived and wrote, and landmarks that shaped and inspired them.
